REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art, either alone or in combination, does not disclose or render obvious an optical fiber connecting device wherein: said sheath holding mechanism includes an elastically deformable holding element provided in said actuating member; and said holding element defines in said body a passage for guiding an optical fiber, and is elastically deformed due to a motion of said actuating member on said body for operating said fiber-element securing member toward said closed position, to press and hold a sheath portion of the optical fiber in said passage by an elastic restoring force of the holding element in combination with the rest of claim 1.

It is noted that the claim 1 is allowable because the unique combination of each and every specific element stated in the claim.

The prior art, either alone or in combination, does not disclose or render obvious said sheath holding mechanism includes a holding element elastically deformable independently from said fiber-element securing member; and said holding element defines a passage for guiding an optical fiber outside of said fiber-element securing member, and presses and holds a sheath portion of the optical fiber in said passage by an elastic restoring force of the holding element in combination with the rest of claim 7 for the reasons stated by Applicant in the Remarks section filed 1/9/07.

It is noted that the claim 7 is allowable because the unique combination of each and every specific element stated in the claim.

Art Unit: 2883

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

The arguments presented in the Remarks section filed 1/9/07 are persuasive. Claim 7 is allowable over the prior art.
